

Sunny Start Evaluation Committee Meeting Meeting Summary

Meeting Date:	Thursday, June 10, 2010 – 1:00-3:00
Location:	ISDH 8C
Attachments:	<div> ENROLLMENT TRENDS April 2010.px</div> <div> Compiled Aid Category Comparisor</div> <div> Enrollment Growth Rate Jan. to April 201</div> <div> Evaluation_Report_9 .doc</div>
Participants:	Sarah Patterson, Emily Kraser, David Roos, Daniel Clendenning, Kim Minnear, Missy Hahn
Staff:	Judith Ganser, Maureen Greer, Rylin Rodgers, Andrea Wilkes
Summary of meeting:	<p>Update on IYI Participation</p> <p>Two IYI staff members, Sarah Patterson, who is in charge of the annual data book and data base and Emily Krauser, monthly issues alerts and custom data reports, joined us today. David expressed thanks to IYI for their participation.</p> <p>Sunny Start Evaluation Report</p> <p>Kim Minnear joined the committee to address questions that were raised as a result of the last evaluation report. Daniel reported that on page 20 of the current report, two possible reasons for decreased enrollment in CSHCS have been identified. Kim shared a brief history of the service delivery model used by CSHC over the last twenty years:</p> <ul style="list-style-type: none">• 1991-1995 (treatment center model within community)• 1995-2001 (community based treatment with care coordinators in community). Combined enrollment was implemented with First Steps in 1996.• 2001 (all services returned to central location at ISDH)• 2006-7 reevaluation was instituted. CSHC is currently getting an average of 300 combined enrollment forms from First Steps. <p>With prevalence of CYSHC and the downturn of the economy, it appears that many eligible children are not participating in the program.</p> <p>Michael Conn Powers asked if anyone has expressed the concern with the decline in enrollment with First Steps as a potential referral source. Kim</p>

shared that CSHC visits each First Steps SPOE annually and that CSHC has a role on the ICC. David asked if the number of applications is stable and what the turnaround time is. Kim shared that they had a 30-day turnaround time on application. The overall numbers have stabilized, but the birth-5 numbers have declined. Michael shared that financial concerns drove the decline in First Steps numbers. Kim will share additional data that is available with the committee.

Daniel continued to identify changes in the new report:

- Page 5 includes an additional section on recent ECCS activities.
- Page 8-18, 2009 numbers are available and will be updated in the next report. Kim Minniear can share the annual CISS report.
- Andrea Wilkes will share updates comments with Daniel including information on teen pregnancy. Missy Hahn shared that the Office of Medicaid Policy and Planning (OMPP) has some data that may support this area that comes from the risk assessment for pregnant women that can be included in the report.
- Page 42 Michael will provided updated information on the Early Childhood Meeting Place.
- P34-35 Paths to Quality information has been updated. Missy asked if there is data collection about what happens when someone gets to level four and what the funding impact is. She asked this information be included in the report.
- Resources include updated information. The new Early Childhood Meeting Place URL will go live at the end of June.
- Page 39 includes a short discussion of the State of the Hoosier Child Report.
- Conclusion includes information about dental. Dr. Ganser will share a bio on Jim Miller to ensure that his credentials are accurate.
- Child Care will have an estimate on the amount of unlicensed informal capacity for childcare in Indiana.
- Audie Gilmer may have updated data on funding for Healthy Families.

Daniel will get a final update to the group in the next week.

State of the Hoosier Child Report

Daniel provided an overview of the chart that was developed and distributed to committee members that identifies the indicators that were developed for the report and the availability of data to address the indicators:

- Access to Health Care and Medical Home: Information at the county may be by county of residence or county of birth, it will be important to note. It is unclear if the hearing screens are billed separately to Medicaid. Gayla Hutsell should have information that will be helpful.

Family Support

- Data is readably available and at the county level. The committee may need to reframe the language of the indicator to reflect the way the data collected. Poverty Level information is available by county

	<p>HUD may have county level information on homeless</p> <p>Social Emotional Development</p> <ul style="list-style-type: none">• May be able to collect data about women who are being treated for Mental Health. The indicator for screening for depression during pregnancy and postpartum period may need to be reframed. The social emotional committee may be able to give input. Daniel will send the request to Michael regarding CAPTA referrals who will ask First Steps.• IAACRA used to track rates of expulsion from early childhood settings; the indicator may have to be framed in something other than a percentage. <p>Early Care and Education</p> <ul style="list-style-type: none">• IYI has numbers for First Steps in 2009. Preschool special education would be available at school district level.• Paths to Quality could be measured by capacity; this indicator will have to be changed. Work Force information will be available from IAEEYC. <p>Parenting Education</p> <ul style="list-style-type: none">• David will follow-up with IYI about DCS data points• Home Visits from birthing hospitals may be surveyed, Maureen will ask Indiana Perinatal Network <p>Daniel will be pursuing his PhD full time starting in the fall.</p> <p>Medicaid Updates</p> <p>Covering Kids and Families (CKF) uses monthly data from OMPP and shares them with the committee. CKF will share the one pager with Core Partners. David asked if this information should continue to be shared for Core Partners. A timeline for communication about updates from OMPP and CKF was established. At the July Core Partners, a quarter's worth of CKF reports will be shared.</p>
Next Meeting	September 16 at 1:00 PM.
